ONLY APPLICABLE IF YOUR SERVICE LAYER IS USING A SELF SIGNED SSL CERTIFICATE

Before coonect the JS implementation

Access directly you SL Login URI and Accept the warning message

Now we are good to go!

```
{
    "error" : {
        "code" : -1001,
        "message" : {
            "lang" : "en-us",
            "value" : "Invalid session."
        }
    }
}
```
